\* thanks and respect to our elephant family for being willing to let their name be used to represent a problem that must be brought into the light of day!

# Introduction

## What is the Origin of “Elephant In the Room”

If an elephant were in the room, you would notice it right away. Right? It'd stick out like a sore thumb. These mammals are the largest land animals on earth! So regardless of the kind of room it's in, an elephant is not something that can be easily ignored.

This metaphor is usually applied to situations where there is a problem, but those in the room choose to not acknowledge it. It's as if there is a big elephant in the room and it is intentionally ignored.

So where did this idiom come from? Its exact origin is unclear. Probably not that old. According to Wikipedia, the Oxford English Dictionary credits the New York Times newspaper from June 20th, 1959, as the first recorded use of this phrase. There is apparently a line from it that reads:

“Financing schools has become a problem about equal to having an elephant in the living room. It's so big you just can't ignore it.”

*How this e-booklet is using it.*

Everyone has been made aware of problems in our lives, our families, and our world that is some form of discounting and domination of others, i.e. racism, sexism, patriarchy, rape culture, war. The information from our Galactic history indicates they all come from ONE SOURCE, the 'elephant' in the room.

## It Begins: Our Star Family in the Galactic Worlds

Sensing the joy as the Star family held one another, Dana moved on the current of the various songs their agenda of Curiosity created. She felt lifted with Excitement, calmed with Peace, and inspired with Creativity. Colors moved through their family collective and Dana was one with the tickling, soothing, and swelling each provided. Since their extension from All That Is, Dana's Star family moved within the currents of their Home energies of Wholeness. But, with more direct impact. Just what they had intended. In this first region of this adventure, Curiosity was opening new doors. Dana felt the breath of Pleasure the family felt with this choice. When they were ready the Star family would return Home with grand stories to tell.

Then, whispers of new possibilities floated. "What about turning down some of the Home flow to see how you would do on your own?" hummed throughout each soul's awareness.

Another, "You are quite young in this experience. You do not know enough to really take advantage. Certainly, not enough. Let us in and we will be glad to help you."

Seemed like good ideas to those with the agenda to explore with Curiosity.

And they opened their boundary and invited in family Collectives whose agendas to Dominate were cloaked with the lie, "We will help you because you are not enough."

The 'elephants had entered!

The presence of agendas to dominate, control, and use others are all around us. Over the lifetime on this planet, humanity has been manipulated, tortured, and beaten into submission, denial, and silence.

The 'elephant' of domination has caused disruptions, even death, while we have programmed to deny its presence.

We participated in our own demise by making its 'bumps' normal.

Unable to speak of the 'elephant', we acknowledge the dangers while pointing to the wrong solution.

Another way that the cause stays hidden is with the common practice to twist the experience to normalize the 'elephant'

Whistle blowers are made the bad guys.

Great energy is spent to destroy those who have been brave enough to point to the 'elephant' of greed, control,

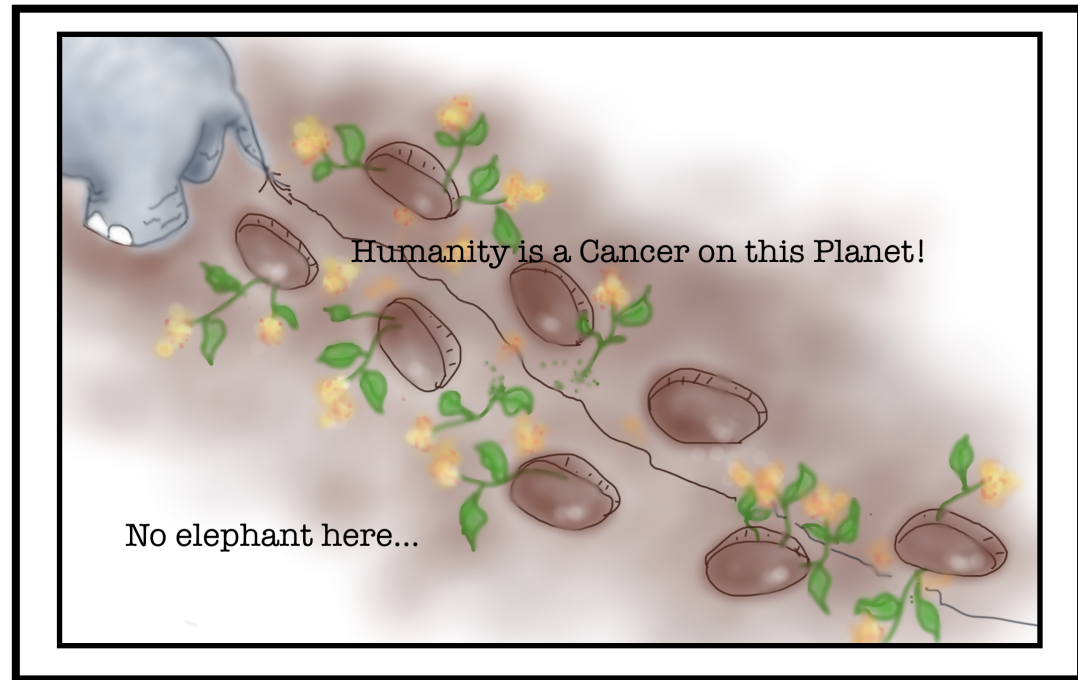

Denying the cause, solutions are created from one symptom. Then, a tug of war is created as to who is right. The arguments, competition, cancelling, and refusal to see the bigger picture creates greater separation which keeps the 'elephant' hidden.

Blaming the victim...

If you would only, try harder, think differently, dress appropriate. And all the while, the 'elephant expands the agendas of greed and control unstoppable.

'Elephants' point away from self and blame the 'others' including humanity.

Whose agenda is destroying our lives and world?

Domination, use of others, controlling, discounting come to keep the 'elephants' hidden. Parasitic by nature whether within an individual, or within organizations whose objectives are profit and greed as their objectives, 'elephants' will destroy their 'hosts'.

Their presence assures cultures of 'systemic domination'.

Acknowledging the 'elephant frees us to remove what has kept us trapped.

Knowing that those with such parasitic agendas exist is an important first step.

Learning what to do to have them moved back to their origin is critical!

Transition is the time to stay aware and look for any hint of the 'elephant'.

Even a 'stuffed elephant' carries energies of the agenda. The contamination is everywhere, on everyone until it is cleared.

## Our Star Family in the Galactic Worlds Made Plans

As the Star family of curiosity began to feel the impact of the Outsider's true agenda, they found their energy field being sucked away. Their breath was less full. Their ability to move was less fluid. Sensations that were totally unknown within their Home moved through them. Songs of discord, harmonics that dampened joy, concepts of weakness, all broadcast from the Outsiders.

Too late the family realized that they were losing control of their own space and outcomes. Small groups of their family were suddenly gone! Kidnapped into regions of dark. The Star family's efforts to stand up and say, "No", brought laughter from the Outside parasitic beings. "Who do you think owns the energy flow? Not you!", came their resounding voices.

Over and over again, plans were made by the Divine families to remove these harmful ones. Conflict, hiding, pretending weakness, being silent. All efforts were to no avail. The ownership of the Outsiders assured slavery for the Star families.

Then, another plan. What about playing out the patterns on a planet where energy would be made visible. In such an environment, the 'elephants' would not be able to hide. The Star families would be able to know the Outsiders by sensing their forms. With a few hidden twists in the plan, the Star families could have them removed back to their homes!

Great idea!

Until the grandeur of the our Earth Mission was discovered by those very Outsiders. From their ownership positions, they created and enforced greater bonds of systemic domination.

But, now, we see their impact. Will we learn, return to the original Earth mission, and act from it's purpose?

Of course.... And it requires learning the Original Mission.

It is time to LEAP from the matrix of the Outsiders onto the Galactic Landscape and build together.

Consider joining me in this year long course as I share all that I have been given from The Ancient Ones over the past 30+ years.

## Another way to consider the 'elephant'.

I once took an adventure into Africa. There I saw a cute baby elephant and decided to bring him to my home in the USA. Everyone was enamored by this baby. And he loved being there.

As he grew, he followed me everywhere, bonded at the "hip".

After a time I could not grow a garden for food because his footsteps crushed the growing plants. Fences did not help because he would just push through to stand by me as I weeded.

Then, the doors to my house were destroyed when he wanted to be by my side. Instead of being a cute baby, he had become a full grown elephant, doing what elephants do.... moving in BIG ways.

Was there something wrong with the elephant? NO!

Ought I be angry and fight the elephant? NO! This is what an elephant does.

The problem is that I had invited an elephant into my world without considering the impact his presence **as an elephant** would bring.

The same is true for Outsiders.

Are they 'bad'? NO!

Does their agenda cause damage and death for their 'hosts'? YES!

**The solution is to know that the Outsiders had a right to choose domination. They have the right to that experience in their own homes. They do not have the right to impose that agenda in our worlds.**

Having the help of extensive teams in the unseen worlds of Spirit to move them back to their Homes is the most loving thing to do. I call those teams the PTO.
