

Guardian of Your Space

Assignment #10

The energy waves that are around us are filled with information. Many assume that it is all Good or Love.

However, because of the information from the Ancient Ones, the keepers of Galactic History, we are now aware that that is not true at this time. In the very distant beginning as Divine Collective Families extended from Home/Source, All Good was their nature.

Now, within our energy field of information, ideas, patterns there are frequencies of 3 basic natures:

1. The Divine Home energy of all possibilities of Good and Benefit... balanced, whole, inclusive.
2. Energy of Chaos, Imbalance, which is usually labeled, fear, negative, doubt.
3. The energy of the Outsider's agendas which is any form of Domination, Control, Usury, Conflict.

Areas of your field to claim authority over:

- Physical
- Mental
- Emotional
- Spiritual

Use Reality Statement to describe the experiences/values for each, i.e. My physical body is strong, vital and all aspects work in harmony and health.

Process for Your Tool Box

Growing into Mastership of Energy

Are You in Good Mind?

This is a good time for you to become aware of Good Mind. This is a philosophy given to the Iroquois Nations by the one they call, The Peace Maker.

The Peacemaker came after the 5 tribes had spent hundreds of years getting justice by invading, fighting, capturing, kidnapping and killing each other. All they achieved as greater blame, fear, and death.

The Peacemaker said that the only way for groups, large or small, to live together in peace was for there to be an agreed upon set of values. This set of values was called, Good Mind. Then, each member of the tribes committed to monitor themselves. When one sensed that they were not in 'Good Mind', they would go within, identify the imbalance and use their own processes to transform the imbalance before they interacted within the tribe.

Here are the steps for this assignment:

1. The values that you determine for your space, your life, become your personal Good Mind.
2. Use your tools to energize this choose, i.e. Reality Statements, Reality Shift, Brain Balance, Imagination, Art, Music, etc. Try on this [VIDEO](#).
3. Become a master at being aware with you are not in Good Mind. Take time to go within and use your tools/processes to health, transform, and reframe the imbalance.
4. Whenever you do your Spiritual Work, claim Sacred Space with Guides of Great integrity to the values you have set.
