

Restoring What Has Been Valuable

When there is disagreement, go back to the agreements. As changes happen with more insight and life openings, agreements will need to be examined.

Intention is to be a space where Diana could be housed as she gathered strength and resources for moving into her own life

I home from which Lief could go to a good school

Current Descriptions of responsibilities and investments:

- **Liz and Matt are hosts, month by month offering guest housing, limited transportation, cooking, sleeping, facilities**
- **Diana and Lief as guests with their major responsibility to create the structure and stability for moving into their own home and life.**

Agreements that are in place:

- **Clean up common areas, complete job tasks or money exchange,**
- **be kind about the house**
- **take upsets into personal work**
- **intense conversations into outdoor space**
- **Monday meetings about reciprocal agreements of farm/home exchange**

Have clear boundaries come from

- **what is to be done**
- **who is to do what**
- **what is not part of job description**
- **Host is responsible for home**
- **guest is responsible for respect for home and exchange**
- **guest is responsible for putting plans together and acting on those plans for her next phase of life**

Farm Therapy is no longer the therapy and so not the responsibility of the host
